

S O A R

THAPAR SCHOOL OF LIBERAL ARTS AND SCIENCES

MISSION

Thapar School of Liberal Arts and Sciences is set up to create a stimulating and inspiring academic environment in which young scholars could awaken to their true potential, critically understand their world from multiple perspectives, and become creative participants in a liberal democratic society. It is also committed to developing a thriving and open research environment in which any new idea is thinkable.

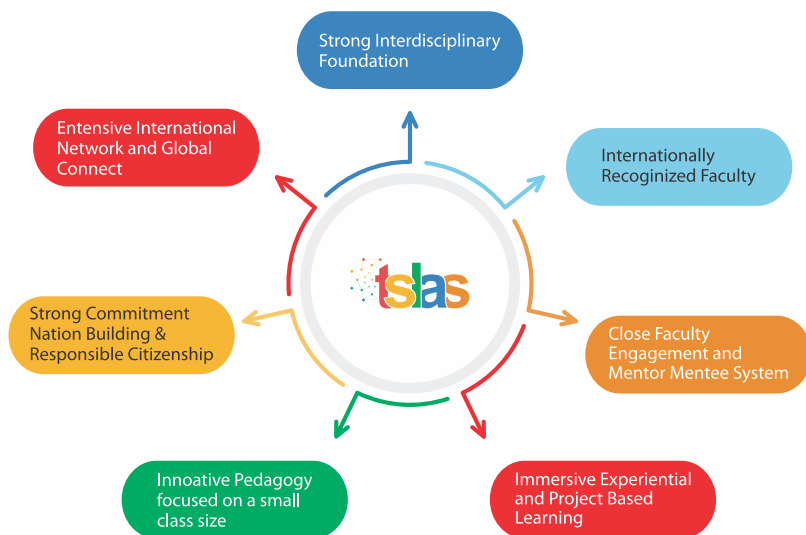

VISION

Thapar School of Liberal Arts and Sciences aims at creating excellence in all facets of intellectual life and a world-class platform for fresh and innovative thinking on wide-ranging global, societal, and individual challenges.

ABOUT THE SCHOOL

We, at the Thapar School of Liberal Arts & Sciences, value holistic education over training students in a narrow set of skills. If you are interested in a broad range of knowledge that prepares you to be a responsible citizen in a liberal democratic society then you should take a serious look at what we have to offer. After an undergraduate degree in liberal arts and sciences from the Thapar School, you will be well prepared for 'higher education and research' path at any leading international university and also well-placed for a good career in private or governmental organizations.

Modern world has become too complex and its problems require us to address them from multiple perspectives—that's what you will learn at TSLAS. Technology is changing so rapidly in our times that by the time a student finishes training in a state-of-the-art skill it already becomes obsolete in the real world. Businesses are increasingly recognizing this fact and therefore prefer candidates with a broad holistic education for leadership roles, as a broadly educated person is found to be more nimble on her or his feet with fast changing situations.

GLOBAL CONNECT

& Opportunities with Partner Universities

The Global Connect and Dual Degree Programs offer a unique opportunity for students to gain much needed global exposure. The Global Connect Programmes at our School of Liberal Arts & Sciences provides unique first hand experience with the culture of the host country.

Our LAS students can make the best use of our global links, having options of studying in more than one university. They can enroll for:

***Two degrees, BSc./BA(India) + BSc./BS
(NL/USA/France/Israel/Japan)***

3 + 1 format

2 + 2 format

One or two semester(s) abroad

2.5 + 0.5 format

2 + 1 format

Summer internship abroad

BA/B.Sc IN LIBERAL ARTS & SCIENCES
IN PARTNERSHIP WITH

university of
 groningen

THE NETHERLANDS

Our program is designed in cooperation with University College Groningen, Netherlands, this reflects an amalgamation of Indian ingenuity and European elegance. Since we have partnerships with several European, US as well as Japanese and Israeli universities, you will also have opportunity to study in those universities as part of your degree requirements as well as get degrees from those universities along with ours if you fulfil the minimum credit-hour requirements at both the institutions (at Groningen you will pay the same fees for studying there as what you pay at TSLAS).

At the Thapar School of Liberal Arts and Sciences you will be privileged to learn from world-class scholars in a small-size class setting. We are offering a very limited number of seats, and we look for highly motivated high quality students, irrespective of their economic circumstances.

- ***15+ majors to choose from***
- ***Option of acquiring BSc/B.S degree from Netherland.***
- ***One, two or 4 semester(s)abroad in New Zealand, USA, France, Israel, Japan, Finland, Austria.***
